PROFESSIONAL SUMMARY

Software Engineer with **4 years of experience specializing in .NET software engineering, cloud modernization, and cloud-native application development**. Experienced in designing and developing scalable solutions using **C#, .NET, ASP.NET Core, REST APIs, and microservices**, along with modern React and Angular applications. Strong expertise in Microsoft Azure, Clean Architecture, SOLID principles, CI/CD, and Infrastructure as Code. Experienced in designing AI agents and development workflows, leveraging LLMs and AI-assisted tools to improve developer productivity and software delivery. Strong experience collaborating with stakeholders to drive AI adoption and engineering transformation across the software development lifecycle.

EXPERIENCE

Quickfox Consulting - Software Engineer

DEC 2025 – Present

Project: Cohort Consulting Group

- Developed modern **.NET/ASP.NET Core applications and REST APIs** using C#, applying Clean Architecture, SOLID principles, secure Microsoft Entra ID authentication, and scalable software design practices.
- Designed **cloud-native architectures on Microsoft Azure**, leveraging Azure services with a focus on scalability, security, cost optimization, reliability, and automation.
- Led CI/CD and **Infrastructure as Code** initiatives using Azure DevOps, Terraform, and PowerShell, supporting automated and reliable application deployments.
- Contributed to architecture decisions, technical standards, code reviews, and engineering best practices across application development and delivery.
- Driving **AI adoption across software engineering**, evaluating and integrating GitHub Copilot, Claude, and LLM-based solutions to improve developer productivity and software delivery.
- Designed and implemented **AI coding agents and specialized development workflows** for automated code generation, validation, testing, code review, documentation, and engineering standards.
- Collaborating with business and technical stakeholders to identify AI use cases, establish adoption strategies, and integrate AI agents into the software development lifecycle (SDLC).

Tools & Frameworks: C#, .NET, ASP.NET Core, REST APIs, React, Microsoft Azure, PostgreSQL, Azure Functions, Service Bus, Terraform, Azure DevOps, Microsoft Entra ID, AI Agents, MCP, GitHub Copilot.

Eurofins IT Solutions India Pvt. Ltd - Software Engineer

AUG 2022 – SEP 2025

Project: Off Site Management (OSM)

- Engineered and enhanced server-side **REST APIs and microservices** using **C#, .NET Core/ Framework, and MSSQL**, with a focus on scalable and efficient data processing.
- Contributed to the modularization and architectural planning of backend systems by developing and maintaining **multiple microservices along with monolith service**.
- Developed and optimized an **Angular PWA** for offline sample collection using **Service Workers, IndexedDB, GPS**, and device features enhancing field operability on remote sites.

- Designed and implemented dedicated client application using **Angular + NgRx** for planners to efficiently plan operations and schedule events.
- Built reusable **Angular-based component library** for Form & Geo component controls.
- Optimized Sync and Parcels/Container modules, **reducing execution times by 85%**, improving user experience, speed & efficiency.
- Led **Angular upgrades (v10 → v16)**, improving maintainability and performance.
- Established **CI/CD pipelines on Azure** for seamless deployments.
- Planned the application domain and architecture, conducted code reviews & mentoring.

Tools & Frameworks: Angular v5/v16, NgRx, PWA, TypeScript, Angular Material, Karma, .NET Framework/Core, Microservices, MSSQL Server, NUnit, Azure DevOps GitHub Copilot

SKILLS

Languages: C#, TypeScript, JavaScript, SQL, HTML, CSS

Cloud & DevOps: Microsoft Azure, Azure DevOps, Terraform, PowerShell, CI/CD, Infrastructure as Code, Grafana, Octopus Deploy

AI & Developer Tools: AI Agents, LLMs, MCP, GitHub Copilot, Claude, Ollama

Frameworks & Technologies: ASP.NET Framework/Core, React, Angular, NgRx, REST APIs, Microservices, PostgreSQL, MSSQL

EDUCATION

New Horizon College of Engineering
Bachelor's in Computer Science & Engineering

AUG 2018 - JUL 2022
Bangalore, India
